RESUME

Specialized Technician in Web Development from OFPPT (CMC Souss Massa), with solid knowledge in frontend and backend development. Capable of designing modern, dynamic, and responsive web applications. Motivated, autonomous, and eager to strengthen my technical skills through an internship, a final year project (PFE), or a first position in web development.

EXPERIENCE

- **Full Stack Developer Intern | Media Leo Tech**
May 2026
 - Participated in building the Qualified Leads Acquisition System (QLAS), a multi-tenant SaaS solution for managing inbound and outbound prospecting efforts.
 - Orchestrated the mono-repo setup and established automated CI/CD workflows using GitHub Actions for Vercel and Railway deployments.
 - Built a RESTful API utilizing Node.js and Express, incorporating Zod to ensure rigorous runtime data validation for lead intake.
 - Built a scoring logic engine and integrated Resend to manage automated email communications based on lead status transitions.

EDUCATION

- Relevant courses
[udemy.com/certificate/](https://www.udemy.com/certificate/)
- Web Development Technician OFPPT – CMC Souss Massa
September 2024 – July 2026
